

Join a Faculty-Led Session to Learn and Share Ideas on the Collective Stewardship of our Mission

We have heard from many faculty members that they want to know more about our work to become the integrated academic healthcare system of the future and contribute their ideas, concerns, and expertise as frontline physicians.

We heard you and are offering information sessions and discussions on the opportunities and challenges ahead for funding our critical work in patient care, research and discovery, teaching, and community.

- The sessions are hosted by our Catalyst Group, 26 physician leaders who are directly engaging faculty around our integration and transformation.
- Learn more about our finances and the strategic levers we are prioritizing to close our revenue/expense gaps.
- Ask questions of your colleagues and share your thinking on the approaches we are taking.
- Sessions will be kept small and held in person, and more will be added based on availability and interest.
- This is the first topic in our new Catalyst information session series, which will be ongoing and include other topics.
