

MARTHA'S VINEYARD POINT OF CARE ULTRASOUND

May 31- June 02, 2024

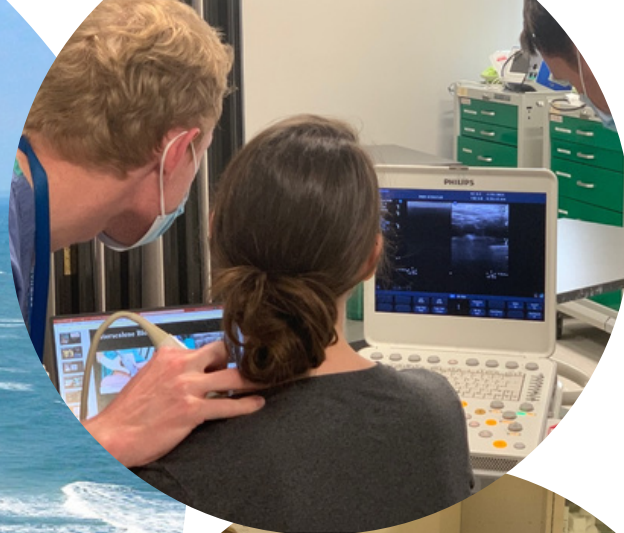

The Island Inn on Martha's Vineyard

Kickstart your summer on Martha's Vineyard with a fun and high-yield point-of-care ultrasound (POCUS) course taught by emergency ultrasound experts from Harvard-affiliated Brigham and Women's Hospital Department of Emergency Medicine. Learn diagnostic and procedural POCUS for all of the highest-yield indication. Two days of personalized training with a 1:4 faculty-to-student ratio. We'll combine didactics, small group hands-on scanning, simulation, and interactive case studies to help you learn to confidently perform and integrate POCUS into your daily practice.

Procedural masterclasses on POCUS-guided nerve blocks to develop confidence and expertise in opioid-free pain control for a wide array of pain indications. We also offer a session focused on POCUS-guided intravenous access so you can learn to cannulate like a pro!
