

## 2017 Campaign Highlights So Far

Alberta Health Services kicked off their campaign on September 19<sup>th</sup>; the United Way was there to support the event. We brought our central region map to provide a visual of all the cities, counties and communities we support. Dr. Evan Lundell addressed the group to stress the importance of the partnership between AHS and the United Way, and our Client Ambassador Mary told her compelling story of how the United Way helped her when her young son was diagnosed with Epilepsy.

Nova Chemicals kicked off with a company BBQ along with the United Way team and co-chairs Ken Johnston and Linda Wilson. Our Client ambassadors Ravi and Geeta talked about the support they received from one of the United Way agencies when relocating from another county, and Tanner shared his experience as a volunteer with the Sundre nutrition program that he has been involved with for 4 years.

ATB Financial got a jump start on their workplace campaign officially on October 1st and they tacked on an extra week this year – running to the 20th. All the ATB branches have been running events at their locations and a very cool Virtual Mini Golf Tournament is coming up this week at carnival cinemas – [click here](#) for the details.

Some of the other workplace Engagements include: Catholic Social Services, Red Deer Public Library, INEOS, Service Canada, Fortis, Ashley Furniture, London Drugs, Shell and TD Trust.

And we aren't slowing down; the calendar is jam packed with events, presentations and road trips to Drayton Valley and Two Hills to talk about the impact we are having in those communities.

A HUGE thanks you to Shell, London Drugs, Canadian Western Bank, TD, and Alberta Parks for attending the Employee Campaign Coordinator training. We truly appreciate your time and commitment!
