ESF Student Portal

https://banner.esf.edu/StudentSelfService

MyESF is still in use as we transition to our new student information system, however, many of the things that used to happen in MyESF happen now only from the new ESF Student Portal. This includes the payment of any unpaid bills, as well as something new, called Action Items. In general, activity related to Fall 2020 will all be happening from the ESF Student Portal, not from MyESF. To access it enter the URL above into your browser or follow the link presented on the MyESF login page.

The credentials to be entered would be your ESF credentials – your ESFiD and password. (You do not enter the @esf.edu portion of your ESFiD) If you have never setup your ESFiD contact our helpdesk@esf.edu.

You will arrive at the Student Profile landing page. From there, you can select where you want to go by using the menu along the left side.

Action Items and Personal Information – Action Items are explained in depth from the **ESF Checklist** option. They are reminders to perform certain tasks. Two noteworthy Action Items are to Waive/Enroll Student Health Insurance and provide Fall 2020 Covid Student Plans. Both are important for the Fall 2020 term. There are many Action Items, but not all will apply to every student.

ESF Checklist – The ESF Checklist will be shown to all students, not just new students, because the portal is a new experience for everyone.

Registration and other SU Tasks – these are specific things to be done at SU. It can be accessed from the Student Profile landing page directly, or from the ESF Checklist.

Download Plan Sheet – until our new Degree Audit system is up and running, continuing students can access their plan sheet from the new portal.

Upload Center – All students should upload a new picture, if they have not already done so, to be available to Class Rosters and the ESF Student record. A student picture must also be separately uploaded at SU, as they print our ESF ID cards.
