

Choosing Children's Books Wisely

This 2 hour training is designed to help early childhood educators explore classroom books that promote a positive sense of identity. When children see characters of their own race, culture and gender in a positive light it allows for a deeper comprehension of the text because they are able to make self connections. Research shows that when children value their own identity, it helps them grow into more confident and accepting adults. Participants will leave with a list of diverse children's books centered around gender, culture, race and lifestyles that will enhance any early childhood environment.
