

Summary

Notice is given by the City of Springfield that is amending its 2019 Annual Action Plan to allocate the remainder of the CDBG COVID-19 supplemental funding. The City's Office of Planning and Economic Development (OPED) intends to submit this amendment for \$776,510.00 in Community Development Block Grant CV (CDBG-CV3 Part A) funds after June 15th, 2021. As part of the planning process, the City is seeking public input on the proposed use of these funds. The following is a summary and draft language that amends the 2019 Annual Action Plan.

Background:

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), Public Law 116-136, was signed, providing additional CDBG funds to prevent, prepare for, and respond to COVID-19 and the economic and housing impacts caused by this unprecedented crisis.

The City of Springfield's 2015-2019 Consolidated Plan details the Community Development Block Grant (CDBG) funding strategy and HOME Investment Partnership program for the period between program years 2015 and 2019. The Annual Action Plan details each year within the 5-year Consolidated Plan and outlines the implementation of annual funding. Each plan is developed through public input, analyses, and planning.

Due to COVID-19, the United States Department of Housing and Urban Development (HUD) issued guidance waiving the Citizen Participation Plan requirements for entitlement recipients, provided (1) no fewer than five days are provided for public comment and (2) reasonable notice, and the opportunity to comment is given.

Additionally, HUD awarded supplemental funding through the CARES Act that requires programming in the 2019-2020 Annual Action Plan. Substantial amendments are necessary to program the supplemental appropriation and reallocate FY 2019-2020 CDBG funds for additional opportunities to respond to COVID-19. The City previously amended its Annual Action Plan to allocate \$799,156 of COVID-19 funding (summarized below). This amendment will make a small revision to the original budget and allocate the remainder of the funds.

The City is seeking comments on the proposed use of CDBG funds for COVID-19 mitigation purposes. The City will consider all comments received **before 5:30 PM on June 15, 2021**, before submitting the proposal to HUD. The City will continue to accept comments from the public after its submittal and use public comments to guide and inform possible future amendments. **The preferred method for submitting comments is to send them via email to: info.OPED@springfield.il.us**

The City will hold a number of two public hearings to gather comments on the proposed use of funds, including: The City will hold a number of public hearings to gather comments on the proposed use of funds, including:

Narrative

The outbreak of COVID-19 and the resulting response has had an unprecedented effect on the City's economy and employment. In order to utilize additional funding provided by HUD to respond to the coronavirus pandemic, the City will make the following changes to its 2015-2019 Consolidated Plan and 2019 Annual Action Plan.

Adding COVID-19 Emergency as a Priority Need

Given the broad range of needs and the limited amount of resources available, the City can only meet a portion of the needs within the community. For the purpose of the Consolidated Plan, the needs identified as "high priority" are those that the City plans on addressing with available federal funds. The City of Springfield will add "COVID Emergency" as a High Priority Need.

Adding COVID Response as a Goal

The City of Springfield added "COVID Response" as a goal to its current Consolidated Plan and PY2019 Annual Action Plan. All of the proposed projects described below address this new goal.

COVID Funding Allocations

These projects were determined in consultation with City staff, departments, and stakeholders serving low- and moderate-income residents of Springfield to identify critical needs resulting from COVID-19 within the City. The City of Springfield will allocate the \$776,510.00 CDBG-CV Award and \$50,000 of the 2019 Annual Plan CDBG Funding to the following uses more fully described in the following pages.
