

General Assembly (GA) is a bargain this year! Held each June, GA 2021 will be virtual, which means you can save thousands and attend from the comfort of your home. **Free events** include General Sessions, Service of the Living Tradition, Synergy Bridging Worship and Sunday Worship. **Registered participants** (cost is \$200, financial support is available) may attend a number of incredible events, including an opening parade of congregations (online - watch for our First Unitarian banner!) and a worship service where our own **Rev. Shari Halliday-Quan** will preach, and much more - [see full list](#).

Registrants can also enjoy The Ware Lecture, which this year will be delivered by **Stacey Abrams and Desmond Meade**. Many workshops are planned including the Fahs Lecture which is a talk focusing on religious education. There will be a virtual Exhibit Hall with over 50 exhibits. GA ends with a significant Closing Ceremony you won't want to miss.

If you'd like to be a **church delegate**, you can vote and comment on the topics discussed in plenary. Those UU's who are morning people can enjoy a short worship service every morning and for night owls there are evening programs, too. There's literally something for everyone!

Unitarian Universalism is alive and meaningful at 220 Winton Road South. We encourage each of you to join other UU's and realize that our relevant community is not distinct but one of hundreds across the continent.
