(updated 4/4/2020)

*We are shifting our focus for these daily messages to highlight the good work being done and opportunities for service. Underlined text is linked to an online resource. Stories, resources and opportunities to serve change daily.*

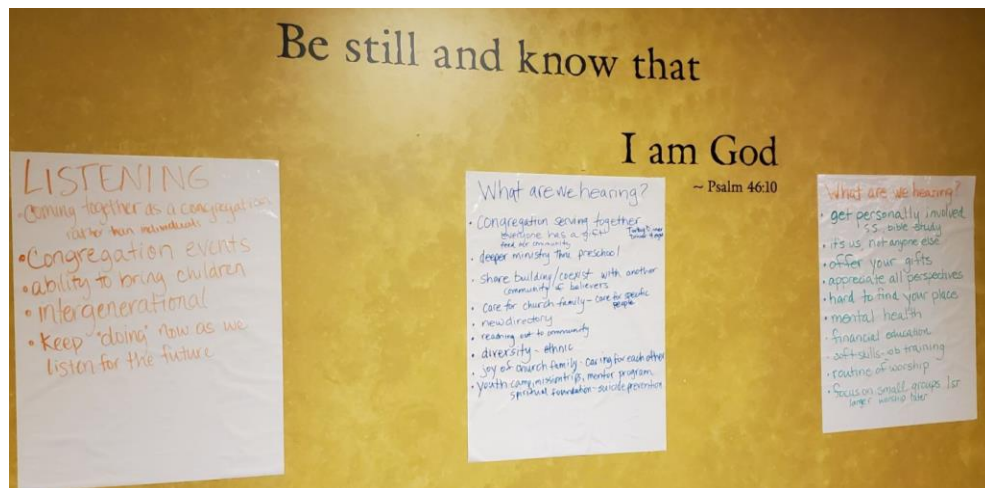

***With more information coming in almost hourly, we are switching formats for you. Now, each day we will post new information on a separate page on our website. The buttons indicating topics will have the same url and new information will be posted at the top. Share these links with others.***

*Archived daily updates are accessible [here](#).*

- SCRIPTURE

- "A little while, and you will no longer see me, and again a little while, and you will see me." John 16:16
- *At the risk of "proof texting: (taking a line of scripture out of context to prove a predetermined point), I suspect that this verse may land differently on the ear in the time of pandemic and orders to stay at home. So much of our faith life is physical. We appreciate seeing familiar faces, feeling the embrace of those in our places of worship who have been with us in good times and bad, and watching the flicker of lit candles on the communion table. We associate these, our sanctuaries, and our fellowship with Jesus. Now, worshiping in our homes in an effort to minimize our infecting the most vulnerable and overtaxing our health system, we may feel more disconnected from Jesus – understandably so. As we enter Holy Week from home, perhaps we can resonate a bit more with the first disciples of Jesus who, in time, will have to look for and find the risen Lord by drawing more deeply on their faith and changing the way they "see."*

  - People who do not have direct deposit information on file with the Internal Revenue Service may have to wait up to 20 weeks to receive cash payments included in the \$2 trillion coronavirus relief legislation, according to a memo drafted by House Democrats. This time frame is longer than the estimate that Treasury Secretary Steven Mnuchin gave when he negotiated the program for cash payments with congressional leaders. He acknowledged it would take more time for those who didn't have addresses on file but suggested on Sunday that he expected payments to go out by mid-April. The IRS is expected to make roughly 60 million direct deposit payments in mid-April, but paper checks will take significantly longer, according to a copy of the memo obtained by NPR. The IRS is expected to begin issuing paper checks about three weeks after the direct deposits are completed and can issue about 5 million checks per week. The timeline is subject to change, the memo states, but the estimates are based on extensive conversations between staff on the House Ways and Means Committee, at the Treasury Department and at the IRS.
