

(Please email office@kcdisciples.org if you have transferred your standing to another region or denomination.)

Ministerial standing is a professional recognition and affirmation of your Christian ministry. The Christian Church of Greater Kansas City requires ordained and commissioned ministers to provide an annual report of their professional activities, participation, and on-going training in order to continue to be recognized as ministers in good standing. Among other things, standing in a recognized church allows ministers to claim a housing allowance for tax purposes and to legally solemnize weddings. In many cases, insurance companies for congregations will only indemnify clergy with standing.
