

# Disciples Women's Service Projects

January, February, and March 2021

With the ongoing Covid 19 epidemic and remaining apart, your Cabinet has chosen to extend the service project that we began in the Fall. We are asking you to continue to collect school supplies, non-perishable food items, personal hygiene items, cleaning items and diapers for the next several months. There are specific items each us deem essential—like toilet paper, facial tissues, laundry detergent, tooth brushes and tooth paste, body soap that cannot be purchased with the SNAP benefits. It came to light recently that many of our Service Personnel are also in need of assistance as salaries are not adequate, dollars just don't go as far, accessibility to a PX and the continued pandemic.

Where to take them? Your local food pantry, Micah Ministry, maybe your local schools, where ever there is a need. If you need ideas of local food pantries or other assistance organizations, please contact your Cabinet members.

Thank You!
