## Volunteer Readers Needed for CDC

As previously announced, the CDC Steering Committee is looking for volunteers to read to our three- and four-year-old students on Thursdays from 10-10:30. We want to focus on the five second-floor classrooms for these age groups as we roll out the new Fountas and Pinnell (F&P) curriculum we will be using for the pre-schoolers. We will have a session to share the books from F&P, introduce the second-floor staff and students, and give some pointers on using the great materials we have available. Having one volunteer reader devoted to each classroom would be ideal. If you are interested in engaging with our CDC in this meaningful way, or if you have questions, please contact [Becky Hazelwood](#).

Saint Mark Youth had fun this past Sunday, June 26th at The Escape Quest in Seneca. Escape challenges offer amusement that requires critical thinking and teamwork.
