

President's Corner –

🌸 United Veterans of Colorado – April Reflections and Recognition 🌸

As the season of renewal unfolds, April invites us to embrace the spirit of hope, gratitude, and remembrance. With longer days and blooming landscapes, we are reminded of the resilience and strength that define our military community.

🌿 **Easter (March 31 - April 1)** – A time of hope, renewal, and faith. Just as spring brings fresh beginnings, we too renew our dedication to supporting those who have selflessly served. May this season inspire kindness, unity, and a commitment to uplifting our veterans and their families.

💛 **Gold Star Spouses Day (April 5)** – On this day, we honor and remember the spouses of our fallen heroes. Their love, strength, and sacrifice remind us that freedom comes at a great cost. We stand beside them, offering unwavering gratitude and support as they carry forward the legacy of those they have lost.

💜 **Purple Up! Day (April 15)** – Military children embody courage and adaptability, navigating the unique challenges of service life with grace. Their sacrifices may not always be seen, but they are deeply felt. Let us take this opportunity to recognize and celebrate their resilience, ensuring they feel valued and supported.

🌍 **Earth Day (April 22)** – Nature has long been a place of healing and restoration, especially for many veterans who find peace and renewal in the great outdoors. As we celebrate our planet, let's also acknowledge the vital role nature plays in the well-being of those who have served, and commit to preserving it for future generations.

April reminds us that even in moments of sacrifice, there is renewal and strength. Whether in the unwavering love of Gold Star spouses, the bravery of military children, or the solace found in nature, we are united in our mission to honor and support our veterans.

Together, we move forward—rooted in gratitude, inspired by resilience, and committed to making a difference.

United Veterans of Colorado

Serving Those Who Served

Warm regards,
Marti Crockett
