

THE EXPRESS

 **INDUSTRY SPOTLIGHT**
BROUGHT TO YOU BY
SAFETY EXPRESS

Education is your competitive Edge in a competitive industry.

At Safety Express, we provide industry-leading training for contractors, and offer a wide range of certified and hands-on courses at our facilities and online. Need to host private classes? We can customize private courses at your location as well. We've been training contractors for decades and have seen the many benefits education brings to companies that take it seriously. The companies that invest in education grow faster than their peers, have reduced liability, and better employee retention. Our goal is to partner with you in the success and growth of your organization by providing high-quality education which will result in:

- Increased competitiveness.
- Increased productivity.
- Ability to provide diversified services.
- Improved satisfaction and motivation of staff.
- Professional conduct and attitude.
- Decreased liability, a better final product, and satisfied clients who will refer you and call again.

Why Choose Us?

- Top instructors with real-life experiences.
- Instructors who have a passion for what they do and want to pass that along to their students.
- A comfortable environment where students can concentrate on learning.
- Maximum hands-on opportunities in each class.
- Hundreds of classes each year at a dozen locations across Canada means classes at convenient times with less travel and expense.
- The widest variety of training subjects.
- [Learn to recognize the most critical details that you need to focus on during any job.](#)

Flood House

Our IICRC approved flood house, located in Montreal, QC is used to facilitate hands on training for structural drying and flood restoration. A Flood house allow students to learn disaster recovery, without all the stress and chaos that accompanies a real job. Make your mistakes at our flood house, not at your customers' homes.

For a complete listing of courses, locations, and dates, we invite you to visit our website. [Click here](#)
