## SYCLONE<sup>®</sup> NEGATIVE AIR MACHINES

**SAVE  
10%  
IN JUNE**

*Designed to last, Cyclone Negative Air Machines and Air Scrubbers are built tough to withstand the wear and tear of daily use. Their compact-but-powerful design gives you a three-stage filtration in a small footprint. Heavy-duty, ball bearing casters make transporting and storage easy.*

**BUY NOW**

- Vertical slide door for easy access to filters
- Four heavy duty spring-loaded handles
- Compact design
- Durable housing features reinforcing ribs for added strength
- Caster nesting grooves built into the top housing for easy stacking
- Powerful 1HP engineered efficient motor design
- Full-sized 2000 class negative air machines
- Blower/motor mounted to unit base and discharge wall for added strength and durability
- Sealed modular control panel for ease of repairs in the field, conveniently located low to eliminate a wiring harness
- Integrated extension cord wrap to prevent power cord from pulling during operation
- Four large, heavy-duty 4" casters, two with locks for easy maneuverability
- Three stage filtration: Pre-filter pad, Ring panel filter, and HEPA filter
