## Flood Master

**SAVE 10%  
IN MARCH**

***Let the Flood Master tackle your flood restoration jobs, large or small!***

The **FM150 Flood Master** incorporates a unique dual 2-stage vacuum system and 150 psi diaphragm demand solution pump. Two 2-stage vacuum motors hooked up in sequence produce 150 inches of water lift. To compliment the vacuum lift, the Flood Master comes standard with an industrial pump which disposes up to 65 gallons per minute under vacuum. The Flood Master's housing is made of high impact, rotomolded unbreakable polyethylene.

The Flood Master's clean water solution tank and the dirty water recovery tank both have a 40-liter capacity. Built into the recovery, the Flood Master comes standard with a high-water automatic shut off. You never have to fear overfilling your recovery tank, as the vacuums will automatically stop extracting when the tank becomes full. For Flood Master without solution pump for floor recovery only, see [ESFM001](#). For Flood Master with 200 psi solution pump, see [ESFM200](#).

**BUY NOW**

### Features:

- ▶ Submersible pump
- ▶ 3 easy lift handles
- ▶ Swivel vacuum tank hose connection
- ▶ Quick latch body for ease of servicing
- ▶ Comes with anti-static 8" rear wheels and 4" front swivel casters
- ▶ Limited Lifetime Warranty on Body Housing
- ▶ 1 Year Limited Warranty on Major Components

### Specifications:

- ▶ Dump/Discharge Pump: 65 GPM
- ▶ Discharge Hose: 50 ft (15.2m)
- ▶ Solution Pump: 150 psi Viton diaphragm demand pump
- ▶ CFM Rating: 94
- ▶ Solution Tank Capacity: 40 L (10 Gallon) with solution tank cover
- ▶ Recovery Tank Capacity: 40 L (10 Gallon) with high water shut off
- ▶ Electrical: 2 25 ft power cords
- ▶ Amperage: 14 amps per cord
- ▶ Internal Heater: No
- ▶ Dimensions (HxWxL): 34" (86 cm) x 17" (43 cm) x 26" (66 cm)
- ▶ Weight: 106 lbs (48 kgs)

*Offer valid until March 31st, 2023.*
