Israel advocacy and education experts

“Being an Israel advocate will be part of my identity as a college student!”

“Having a greater knowledge of the issues gives me more confidence as I get ready to leave home.”

“Having a personal story to share, about the ‘real Israel’ that I know and love, will teach others that there is more than one way to look at an issue.”

Finding Your Voice for Israel will be an opportunity for Jewish teen groups to mobilize their membership to come to the VOSJCCampus for an evening of learning, hands on activities, and community.
