

HELPING HEARTS AND HANDS

Kehillah's caring brigade is Helping Hearts and Hands (HHH). Co-chaired by Judith Clancy and Davie Glaser, HHH is available to help with the needs within our community. We welcome volunteers to join us!

Initially, we will be addressing these needs:

- o Developing a Virtual Medical Equipment list to be made available for loan
- o Visitations/Calls at home, hospital or rehab
- o Providing meals

If you have any durable medical equipment (wheelchairs, canes, walkers, crutches, etc.) at your home that is not being used and would let someone in need borrow them, please contact Ilene Riffle. We are compiling a list of equipment that members can borrow. The equipment will not be housed at the synagogue but rather stay in your home until a need arises. When a need arises, the person in need will be matched with a person who has the equipment to borrow. We can help facilitate the transfer of equipment as well.

If you wish to volunteer to be contacted to make a meal or to provide visits/calls to those in need, please contact Judith Clancy (concerning visitations/calls) or Renee Joffe (Kehillah Administrator).

Thank you!
