# DON'T LEAVE YOUR WINDOWS OPEN TO CYBERCRIMINALS

---

WINDOWS 7 & SERVER 2008  
END OF LIFE GUIDE

# WHAT IS HAPPENING?

- Microsoft will **end support** for Windows 7 & Server 2008 on January 14, 2020
- There will be **no further patches or security updates** and your systems will be at risk

# WHY IS THIS IMPORTANT FOR YOUR BUSINESS?

- Unsecured systems can lead to data breaches, liability issues and more
- This is a **red-carpet invitation to cybercriminals**
- Cybercriminals find systems that are no longer supported and exploit them

# HOW CAN WE HELP?

## UPGRADE TECHNOLOGY

Technology is evolving at an accelerated rate. Acquire the technology you need to stay up-to-speed and keep your business and systems running. This includes upgrading to the latest Windows environment.

## CONTROL IT COSTS

A predictable monthly cost that is easy to budget for without unexpected IT expenses. Understand future technology costs and plan ahead accordingly to scale your growth.

## MAXIMIZE EFFICIENCY

Proactive support to resolve IT issues before they happen. Even when IT issues occur, there's less downtime with our technical experts as an extension of your team.

## FREE UP CASH

Use capital for revenue generating activity rather than big spends on IT equipment and make the most out of your capex dollars.

# IT'S COMING SOON, WE CAN HELP.

The **Windows 7 & Server 2008** end of life date is rapidly approaching.

Let us help you gain **peace of mind** for all your technology and cyber security needs on a fixed monthly budget.

THANK  
YOU
