

LEAVE A **MARK** IN OUR **WATERSHED**

Looking for a fun, hands-on activity for
your block... church...class...friends...business?

Connect people to their creeks by **marking storm drains**
to keep pollution out of our waterways.

Join us for a **free hands-on training!**

Pick up materials to lead storm drain marking in your neighborhood.

Runoff is rain water that “runs off” across land instead of seeping into the ground. Many **storm drains** empty directly into streams. Runoff collects pollutants such as leaky motor oil, pet waste and litter from our streets, sidewalks and yards and washes it into storm drains. Protect your creek by protecting your storm drains.

WHEN: Saturday, June 17
from 10 AM to 12 PM

WHERE: High School Park, Elkins Park, 19027

RSVP: Marcus Paul at marcus@tffwatershed.org
