DoS Observer Certification Process

As a Certified DoS Observer:

- Conduct as many DoS observations as you like to collect data that informs quality improvement and/or share with stakeholders
- Access technical support at The PEAR Institute
- Submit field observations to a secure database
- Request reports on your DoS observational data including comparisons to national trends up to 3 times per year per program
- Please contact PEAR for a link to upload your data so that you may receive a DoS data report

Please Note:

- **Only certified observers** can complete DoS Observations
- Your certification is good for 2 years
- Certification can be renewed by a 4 hour recertification training and PEAR review of field observations
