

I-45N EXPANSION AND CHILDREN'S HEALTH

Join us at a neighborhood community meeting

to talk about the freeway expansion project, known as the North Houston Highway Improvement Project, or NHHIP, which is estimated to cost at least \$6 billion.

I-45 N will be rebuilt and expanded from Beltway 8 N to the Wheeler Transit Station in Midtown (including major changes to the downtown freeway system, Spur 527, and 288 N) over the next 10+ years.

How could the I-45 N freeway expansion affect your family's health?
