NSSA Foundation Delivers Strategic Plan

Famous for its country music, Nashville had a new sound in early November when the [National Storm Shelter Association](#) raised its voice in the city. As attendees of the 2016 Storm Shelter Conference learned more about storm shelters, they also enjoyed a unique opportunity to contribute to the NSSA Foundation Strategic Plan.

After an overview presentation by Tim Smail, NSSA Foundation Executive Director, FLASH partners [Portland Cement Association](#) and [Simpson Strong-Tie](#) facilitated breakout sessions that allowed the participants to discuss options and provide direct feedback on the plan.

The NSSA Foundation will convene three committees based on the plan's focus areas: Education, Outreach, and DisasterSmart Financing. Together, committee members will develop storm shelter education and acquisition opportunities while seeking subject matter experts for new partnerships.

For more information on the NSSA Foundation or to join a committee contact info@flash.org.
