SHARE is celebrating its 43rd anniversary as a survivor-led organization that provides free support, peer counseling and education to women affected by breast or ovarian cancer, their families, and friends. In 2019, an estimated 268,600 new cases of invasive breast cancer and 22,530 new cases of ovarian cancer are expected to be diagnosed in the United States. Proceeds from this event will be used to bring SHARE's Pink & Teal Seminar Program to the workplace to provide information on risk and risk reduction, symptoms and detection, diagnosis and treatment of these diseases from a survivor's perspective.
