

# Loma Alta Slough Wetland Enhancement Project

## Community Design Workshop

**You're invited** to a community workshop to help improve the Loma Alta Slough

### PURPOSE

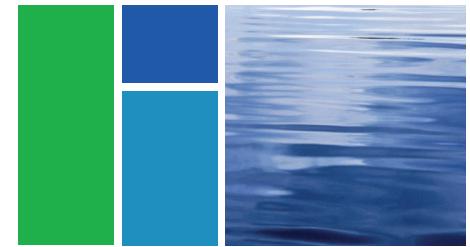

The City of Oceanside is developing a wetland enhancement design for the Loma Alta Slough located between Coast Highway and Pacific Street. The purpose of the project is to expand coastal wetland habitat and improve public access through trails and educational signage. The City is seeking your participation to make the final design a true community-driven project.

### AGENDA

A brief presentation of conceptual design alternatives and public access options will be given at 5:15 p.m. The remainder of the time will be for attendees to work in groups and discuss preferred elements of each alternative, with the goal of selecting a preferred design option for the City's consideration. Light refreshments will be provided.

### QUESTIONS

If you have questions, please call or email Justin Gamble at (760) 435-5093 or [jgamble@oceansideca.org](mailto:jgamble@oceansideca.org).

Date:

**Thursday, January 16, 2020**
