# NEW STATE REGISTER LISTINGS

ALBERT BALL HOUSE, CLAREMONT

The New Hampshire State Register of Historic Places is an honorary listing that encourages the protection of significant buildings, districts, sites, landscapes, structures or objects that are meaningful in the history, architecture, archeology, engineering, or traditions of New Hampshire residents and communities. In 2021, 23 new listings were added to the State Register. Below are just a few photos that illustrate the diversity of properties added.

THE M/S MOUNT WASHINGTON, LACONIA

SUSPENSION BRIDGE, MILFORD

MORRISON HOUSE, LONDONDERRY

GOODHUE HOUSE, DEERFIELD

FOREST GLADE CEMETERY, SOMERSWORTH

## NEW NATIONAL REGISTER LISTINGS

The National Register of Historic Places is an official list and honorary designation bestowed by the U.S. Department of the Interior. It is coordinated effort to support public and private efforts to identify, evaluate, and protect America's historic and archaeological resources.

THE POTTER SITE, RANDOLPH

The eight-acre Potter site is a rare example of a highly intact, exclusively Paleoindian multi-purpose archaeological site. Studies done by professional archaeologists indicate that it was used intermittently as seasonal hunting and fishing camps from 12,500-10,500 B.P. Data recovered at the site through archaeological study has provided important information that has led to better understanding of the Paleoindian period in the Northeast.

JOSLIN-FAULKNER-PUTNAM HOUSE, KEENE

Built in 1889-1890 and with virtually no alternations since 1913, the house ranks among the finer examples of Queen Anne domestic architecture in southwestern New Hampshire.
