

## **PATTY LEKEWA**

An internationally known clairvoyant medium and psychic, Patty has been studying the Metaphysical Sciences since 1987. When she was 17, she lost her father, an unbearable loss. An encounter with a gifted psychic in 1987 allowed her to deal with the pain of her father's death, and started her on her own quest for real spiritual knowledge.

In the beginning, she had no intention of ever serving the public. She simply wanted to converse with her father, without a medium in the middle. Eventually, a dear friend and fellow student talked her into doing a "psychic party", where she would do individual readings for each guest. Not thinking much about it, she agreed, only doing 15 minute sessions. When she got home the next day, 10 out of the 14 people who had attended the party had called leaving

messages requesting parties of their own. Thus began her public service.

After further studies, she was ordained a Spiritualist Minister in 1994. In addition, she is a Healer, Teacher, Reiki Master, Hypnotherapist, Spiritual Advisor, and Trance Channeler. She has taught a continuing series of classes and seminars in Spiritual Development.

Her quest for Truth has brought her to an understanding that she tries to share with everyone, so that they may also find comfort in knowing that our loved ones do continue on through the "change" called death. She constantly demonstrates that fact through her mediumship in private and public sessions
