

## **LATE CANCELS**

If you have signed up for an apparatus class and you don't cancel it, you WILL get charged \$24 for the class. Apparatus classes usually have a waiting list. If you cancel out of a class, the next person on the waiting list will be able to take the class! YAY! Also, your teacher is getting paid per client. An empty machine (or TRX strap) could mean she makes less money! You will be charged for the class, so that the teacher will still be paid for your empty space (which could have been filled by a wait-lister)! If you cannot attend, please cancel at least an hour before the class...much earlier, if possible. We REALLY appreciate it! If you have a monthly unlimited or an annual package, your credit card will be charged... this is on your consent form. I hate to do it, but it has to be done! We have had many empty machines lately, and a big group of people who would have loved to have taken your space. Group classes...you will be charged \$14 if you don't cancel your class as well. If there are less than four people in a class, the class will get canceled, because Happy Hour loses money when we pay a teacher for a class of three or less. So if you don't sign up, the class could get canceled...so don't skip signing up!! But please cancel at least an hour in advance...much sooner would be better. It's very important and I would hate to charge you for a class you didn't attend.

Thank you for your cooperation!
