- ✓ Data-Driven Analysis
- ✓ Our analysis of the most recent weekly US lodging results

Lodging: U.S. RevPAR -4.6% y/y last week; Veterans Day calendar shift and continued hurricane comp impact results

Overall, U.S. RevPAR was -4.6% y/y for the week ending 11/15/2025, per STR/CoStar, below the prior week's result of +6.2% y/y and below the trailing 10-week average of -1.6% y/y.

Last week's results were primarily impacted by several y/y comps and calendar shifts: the shift of Veterans Day from Monday in 2024 to Tuesday in 2025 and the continued hard y/y comp from hurricane-related displacement. We assume that the government shutdown also depressed demand. Headline lodging results were y/y negative across the chain scales and still very bifurcated between Luxury (RevPAR -1.6% y/y) and Economy (-7.1%). Unsurprisingly, given the holiday shift, Group RevPAR was negative (-6.8%).

Additional data points of note:

- Last week also comped the post-Election Week in 2024. We assume a tougher comp y/y given light business travel during Election Week in 2024/quick resolution of results and the push out of some business travel last year to the week following the election.
- Continued tough hurricane-related displacement y/y comps for the Southeast and select-service. Select-service hotels were also relatively more impacted by the government shutdown.
 - New Orleans RevPAR: -31.2% y/y
 - Tampa RevPAR: -25.0% y/y
 - Midscale RevPAR: -4.2% y/y
 - Economy RevPAR: -7.1% y/y

- Midscale RevPAR: -4.2% y/y

Truist Securities Rating System for Equity Securities

Truist Securities, Inc. ("Truist Securities") rates individual equities using a three-tiered system. Each stock is rated relative to the broader market (generally the S&P 500) over the next 12-18 months (unless otherwise indicated).

Buy (B) – the stock's total return is expected to outperform the S&P 500 or relevant benchmark over the next 12-18 months (unless otherwise indicated)

Hold (H) – the stock's total return is expected to perform in line with the S&P 500 or relevant benchmark over the next 12-18 months (unless otherwise indicated)

Sell (S) – the stock's total return is expected to underperform the S&P 500 or relevant benchmark over the next 12-18 months (unless otherwise indicated)

Not Rated (NR) – Truist Securities does not have an investment rating or opinion on the stock

Coverage Suspended (CS) – indicates that Truist Securities' rating and/or target price have been temporarily suspended due to applicable regulations and/or Truist Securities Management discretion. The previously published rating and target price should not be relied upon.

Truist Securities analysts have a price target on the stocks that they cover, unless otherwise indicated. The price target represents that analyst's expectation of where the stock will trade in the next 12-18 months (unless otherwise indicated). If an analyst believes that there are insufficient valuation drivers and/or investment catalysts to derive a positive or negative investment view, they may elect with the approval of Truist Securities Research Management not to assign a target price; likewise certain stocks that trade under \$5 may exhibit volatility whereby assigning a price target would be unhelpful to making an investment decision. As such, with Research Management's approval, an analyst may refrain from assigning a target to a sub-\$5 stock.
