

UpDog Yoga Therapy

with Tracy Flynn

*Certified Yoga Therapist (C-IAYT) and
Advanced Yoga Teacher (E-RYT 500)*

What is Yoga Therapy? Yoga Therapy is a one-on-one approach that employs yoga techniques to improve health and well being. It involves the adaptation of Yoga practices to help individuals facing health challenges at any level manage their condition, reduce symptoms, restore balance, increase vitality and improve attitude.

What to Expect Sessions are one-on-one and tailored to your conditions, limitations and interests. During your first session you will explain the history of your conditions and your health goals and answer a few questions. Tracy will then lead you through a practice to address your specific needs in a way that is relevant and comfortable to you.

What Conditions Can Yoga Therapy Help With Yoga Therapy can help reduce pain and promote healing for structural conditions, like low back pain, physiological conditions, such as breathing problems, and psycho-emotional conditions, like anxiety.

What is the Cost? A session is one hour for \$85.
4 sessions \$320 (\$80 per hour, good for 4 months)
8 sessions \$600 (\$75 per hour, good for 8 months)
