***Do you have a hangover from an amazing time on New Year's Eve, just feeling tired or fatigued, or want to start off the New Year with improved health and wellness?***

***Dr. Brian McCarroll has the cure!***

Join Dr. Brian for our first ever New Year's hangover breathing class to learn a breathing method that can get rid of any hangover or general sleepiness and fatigue in less than half an hour. You'll need to do some breathing, but it will make you feel better with every round - until you start feeling better than just fine, and even great!

This 60 minute breathwork class includes electrolyte infused water before we begin, breathing techniques and light Yoga specifically designed to knock out a hangover, followed by tea and cacao after class. This breathing style is modified from regular breathwork class so if you are experienced with that you can still learn something new and feel great while you are doing it as well.

No prior breathwork experience needed. Dress in comfy, loose layers such as sweats. You will be profoundly changing your body's chemistry by breathing so for safety purposes we ask that pregnant women, people with uncontrolled high blood pressure or uncontrolled epilepsy do not participate in this particular breathwork class.
