IOGA

ILLINOIS OIL & GAS ASSOCIATION

THE VOICE OF
the oil and gas industry
IN ILLINOIS

ADVOCACY

As a professional advocate for the Illinois oil and gas industry, IOGA has formed strong and productive nonpartisan relationships with state/federal policymakers as well as state/federal regulatory agencies. Our active presence before the Illinois General Assembly, U.S. Congress, and state/federal regulatory agencies means the concerns of the Illinois oil and gas industry are heard in Springfield and Washington, D.C.

We have and will continue to:

- Engage in tough energy policy debates explaining what's important to IOGA members and where we stand on energy, tax, and regulatory issues.
- Mitigate any imposition of a severance tax on oil production.
- Meet with county assessors to formulate the ad valorem tax schedule.
- Support legislation that allows for faster well permitting and reduced spacing for production wells.
- Actively engage with IDNR through the Oil & Gas Advisory Board to ensure reasonable oil and gas rules and regulations.
- Actively engage with key federal policymakers to advocate the preservation of key federal oil and gas tax provisions like the percentage depletion allowance.
- Advocate for modification of EPA methane requirements for small independent producers.
