Miami Valley Veterinary Medical Association
(937)228-2425 miamivalleyvma.org

Thank you for your interest in the Miami Valley Veterinary Medical Association. Started in 1995, the association is regional in scope. Although most of our members are affiliated with private small animal practices, we welcome (and do have) members involved in specialty practices, large animal practice, industry and research.

Our goals are to provide quality continuing education opportunities through CE meetings, to communicate items of interest through monthly newsletters and the MVVMA website, to foster relationships with local humane organizations, to keep members notified of regulatory changes of concern, and to offer social opportunities with colleagues. In 2018, the general membership meetings will be Tuesday evenings and Sundays. Space permitting, MVVMA has invited technicians to attend meetings for a fee. Evening meetings will consist of a light meal, announcements, possible brief association business, followed by the speaker worth 2 hours of CE credit. Sunday meetings will include 4-6 hours of CE with a meal. There is an additional cost for the annual 6 hour CE seminar in November, which also offers a separate CE meeting for technicians. Upcoming meeting information can be found on the association website. Monthly newsletters & CE reminders will be sent by email. The MVVMA also helps the Humane Society of Greater Dayton maintain a list of veterinarians willing to participate in their weekly vet checks, Wednesdays at noon, for \$50/hour. The current rotation schedules each participating veterinarian approx. 3-5 times/year and MVVMA encourages all veterinarians in or near Montgomery county to participate.

The Board, consisting of the 5 officers and 5 trustees volunteering their time, usually meets the third Tuesday of the month and is responsible for the business of the association. The Board has recently added the services of an Executive Secretary to help with communications. New members are encouraged to become involved in the association by attending meetings and serving on Committees. Monthly Board meetings are open to members and member input is always welcome. Contact the secretary for the time and location.

The MVVMA policy for handling grievances follows AVMA guidelines. Any contact received from clients with grievances are forwarded to the MVVMA President. Since many of these problems are simply related to miscommunication, members appreciate the opportunity to have a protocol to help resolve them at a local level, usually without proceeding to written complaints, peer review, or forwarding to OVMA or OVMLB.

Veterinary Medicine and the Veterinary Community are constantly changing. The MVVMA is doing its best to provide strong local/regional support for its members. After receipt of membership registration form and dues fees, the Board votes on new members. Upon acceptance, members are welcome to attend all CE and social events and request access to the member only section of the website, which includes the membership roster & Code of Regulations. Membership enrollment is open from January 1 - September 31. We look forward to having you become part of our organization.

Sincerely,

Linda L. Kohl, DVM, MVVMA Treasurer
