

Paper Lantern

Supplies:

- Colorful paper
- Mini paper punches
- Tealight candles
- Tape or stapler

Instructions:

1. Fold paper lengthwise.
2. Cut slits along folded edge until about an inch away from the edge. Make sure the width of the slit is larger than the size of your mini paper punches.
3. Using your paper punches, add punch-out patterns. You can bunch designs along the slits or edge as desired. *Optional:* have the kids decorate the lantern any way they'd like.
4. Unfold the lantern. Bring the two long ends together and staple in place.
5. Use a flameless tealight or candle to illuminate.
