

Paper Windmill

Supplies:

- Crayons or markers
- Pencil
- Push pin
- Scissors
- Cardstock, or any paper you have available

Instructions:

1. Take your piece of paper and cut it into a perfect square.
2. An easy way to do this is to fold the paper into a triangle, taking one corner and lining it up with the other side. This will leave excess on one side that, once cut, gives you a square.
3. Decorate both sides of the paper with whatever design you wish.
4. Fold the paper diagonally so that it forms a triangle. And crease it lightly.
5. Repeat this for the opposite direction as well. You will then unfold and have a creased "X" on the page.
6. Cut along the creases about halfway to the middle of the paper. Be sure not to cut all the way.
7. Bend each corner into the middle. Make sure to bend and not fold.
8. Once all 4 corners are in the middle, push the push pin through them all as well as the eraser of the pencil. Be careful not to hurt yourself with the pin.
