

## Heart Butterfly Craft

### Supplies:

- Wooden spoons
- Card stock paper
- Washi tape
- Markers
- Pipe cleaners
- Glue
- Scissors

### Instructions:

1. Grab your wooden spoons and decorate them if you like.
2. Take your card stock and cut out different sizes of hearts that you'll be using for your butterfly wings.
3. Next, glue your hearts together to create your wings and glue them behind your spoon.
4. Cut your pipe cleaners to the length you'd like for the antennae and draw on your butterfly's face using some markers. Curve the antennae a bit and there you have it!
