

“Intergenerational Spirituality” with Br. Don Bisson, FMS  
Friday, October 9<sup>th</sup> 7:00-8:30 pm ET  
(This lecture is also included in the Intergenerational Wisdom Retreat)

Intergenerational Spirituality is an awareness and response to the archetype of the seeker. Young, middle aged and elderly are still beset by the meaning of life, the psyche's push for recognition, and the journey to the True Self. Time is insignificant to the inner world and the process of individuation. This spirituality unites us all in the human condition and the divine quest. What unites us is the universal call to holiness and wholeness. The depth of questions is more important than the answers.
