WHERE HEALTH COMES FIRST

# Welcome to The Health Depot!

I'm excited to welcome you to **The Health Depot, a clinical pharmacy accredited by the Ontario College of Pharmacists**. So, what is a "clinical pharmacy" you ask?

A clinical pharmacy provides specialized services to support a patient's entire health and wellness – optimizing medications and preventing disease. The Health Depot is part of Ontario's eHealth Network and this grants us access to critical health information including the lab test results of our patients.

We offer **complimentary, 30-minute clinical consultations** by phone or video call. From the privacy and comfort of your home, we'll take the time to answer your questions. A Health Depot clinical pharmacist will work with you and your doctor to personalize your medications to help minimize side-effects and drug interactions, while making sure you're getting the most from your prescription drug therapy. The Health Depot is a certified compounding pharmacy, preparing customized prescription lotions, creams, and ointments.

When you become a Health Depot patient, you'll have real-time access to view your prescriptions from your computer or smartphone through our **MyMeds app**. You can order refills and have your pills packaged in traditional bottles or Daily Dose Packs at no extra charge.

And, our Health Store has more than 5,000 health essentials and products like vitamins and supplements that can be delivered with your prescriptions at no extra mailing cost.

**Book your free appointment by phone or online.** I look forward to introducing you to our clinical services and to helping you reach your health goals!

**ANDREW DONALD**

Clinical Pharmacist and President | The Health Depot

**CHOOSE HOW YOU GET  
YOUR PILLS PACKAGED:**  
Bottles or Daily Dose Packs!

**BOOK A COMPLIMENTARY  
CONSULTATION** with The Health  
Depot today. Our team of clinical  
pharmacists will work with you  
to personalize your medication  
therapy and answer your questions.
