We want to hear from you!

When our construction work is finished, we'll send you a brief survey in the mail to collect feedback on your experience. Toronto Hydro values your feedback and we're committed to providing you with the highest quality of service possible.

Important information and safety tips on the reverse side.

PROJECT STAGES

1

Design

The *design* stage is when technical staff plan on how to get the new power supply to your home or business.

2

Civil

The *civil* stage is when crews dig into the ground and place new poles and underground conduits.

3

Electrical

The *electrical* stage is when crews switch over the supply from the old to the new system.

WORK DETAILS

What to expect

- While Toronto Hydro will make every effort to reduce the impact of construction on your community, you may experience dust, noise and other inconveniences as a result of the work on this project. We appreciate your patience as we work to improve the reliability of service in your neighbourhood.

Work hours

- The work on this project will generally take place Monday to Friday, between 7 a.m. and 7 p.m. However, some weekend work may occur.

Road and sidewalk access

- In order to complete work in a safe manner, there may be road and sidewalk restrictions within the construction work area. In the event of any parking restrictions in your community, advance notice will be provided.

SAFETY TIPS

Public safety is our top priority and everyone plays an important role:

- Never enter a construction area marked by fences or safety cones
- Be visible at all times and make eye contact with people operating equipment
- Be aware of your surroundings and avoid distractions
- Follow all safety signage, even if there are no construction workers around
- Walk on the sidewalk or designated walkway
- Ask for assistance to walk around the construction area if preferred
- Watch your step! Always be prepared for unexpected hazards
- Report anything that looks dangerous to a construction site worker, or call 416-542-8000
