

Online Fluency Homework Student Access Steps

1. Log into HMH Ed (through Clever).
2. Click on Amira on the right side of the screen.

The screenshot shows the HMH Ed student dashboard. At the top, there are navigation links: Dashboard (highlighted in yellow), Discover, Assignments, and Scores. On the far right, there are help and user profile icons. The main area starts with a greeting: "Hi, Adeline!" and the date: "Today is Tuesday, September 13, 2022". Below this, there is a section for "Due Today and Overdue (0) [View All Assignments](#)". A note says: "You may have other assignments to complete. Check your Connected Programs to make sure." A red arrow points from this note to the "Connected Programs" section on the right. The "Connected Programs" section has a heading and a note: "Check your Connected Programs for any additional work you might have waiting (a new window will open)." It lists three programs: "Amira" (with a red box around it), "Waggle*", and "Writing Task".

3. Amira will ask about your microphone to ensure it is on and working.
4. Click on Read a story

The screenshot shows the Amira welcome screen. The text "Great to see you, Adeline!" is displayed in large, bold, dark gray and teal letters. Below it, the question "What would you like to do today?" is asked in a smaller gray font. Two buttons are shown: "Read a story" (with a red box around it) and "See progress". A red arrow points from the "Read a story" button to the "Read a story" button on the previous screenshot.

What happens when a student doesn't know a word or makes a mistake? Amira steps in to help. This is what it may look like on the screen when Amira is fixing an error:
