*Cultivating connections to help seniors and people with disabilities age and thrive at home*

## Let's Make San Francisco a Great Place to Grow Older

At the Community Living Campaign, we're working toward a San Francisco where we can all live—and thrive—in our homes and neighborhoods as we grow older.

We look at the whole picture of what a person needs to age in community. This includes having friends you can call on for help, as well as financial security and a home that enhances your dignity. It means having real choices and the ability to make your own decisions, as well as opportunities to learn, get active, and give back.

We bring greater joy, health, and connectedness to seniors and people with disabilities in San Francisco through **community-building, empowerment, and advocacy**.

## Community Building

We cultivate and strengthen the support and friendships needed to age and thrive in place. This work strengthens neighborhoods across the entire city!

Our award-winning **Community Connector Networks** build communities of neighbors and friends who can be there for each other—plus have fun and get more active.

Neighbors in **Food Delivery Networks** bring groceries and human connection to seniors and people with disabilities who can't get to food pantries on their own.

## Empowerment

We help build the skills and tools needed to live a good life, whether that's learning how to use technology, finding employment, or being a strong advocate for yourself and others.

**Healthy Aging Classes** focus on empowerment and building vital friendships and connections.

### Computer Training and

**Access** helps people connect with family members, manage their health, learn new skills, and more.

Our **SF ReServe Job Program** helps seniors and adults with disabilities find paid part-time work at local nonprofits.

## Advocacy

Our advocacy focuses on winning the policies, services, and supports needed to make San Francisco a welcoming place for all.

We help individuals speak out, and create diverse coalitions to work toward an aging and disability-friendly city. We monitor decisions at City Hall and make sure the voices of seniors and adults with disabilities are heard loud and clear.

We helped launch and now coordinate the SF Tech Council, a multi-sector effort to tackle digital inclusivity in San Francisco.

We helped to pass the Dignity Fund to ensure services and support for seniors and people with disabilities.
