

WELCOME DR. AYMARA FERNANDEZ DE LA VARA

We are delighted to announce the newest addition to our esteemed faculty group practice at FIU! Please join us in welcoming Aymara Fernandez de la Vara, M.D., who brings a wealth of experience and expertise in primary care and internal medicine.

As a full-time physician and assistant professor at the FIU Herbert Wertheim College of Medicine, Dr. Fernandez de la Vara will provide patient care and mentor our third-year medical students in the internal medicine clerkship, imparting her knowledge and passion for medicine to our future doctors.

She is fluent in both English and Spanish. You can find her at our practice on FIU's main campus at 800 SW 108th Avenue, Miami, FL 33174.

Dr. Fernandez de la Vara joins us from Chen Senior Medical Center, where she distinguished herself by delivering compassionate, personalized care to her patients. Her medical journey started at the Temple University School of Medicine, where she received her medical degree. She then completed residency training in internal medicine at the University of Miami/Jackson Memorial Hospital, where she served as chief resident. She obtained her bachelor's degree from FIU—a homecoming we're thrilled to celebrate!

To schedule an appointment with Dr. Fernandez de la Vara, please contact FIU Health at 305-348-3627.
