The **Inclusive Leadership** Workshop

It's not just about differences.

Diversity is a statistic. Inclusion is the action required to translate the statistic into strength.

In this one-day workshop – you'll learn how to harness the power of inclusion to lead more effectively. Manage the discomfort of building better inclusive relationships and build your *authentically you* strategy. By taking an *engage* rather than simply *comply* approach, leaders can break through the fear of discomfort, strengthen culture, and build-up their team members in new ways.

Small mental and behavioral shifts can make your life better. Small shifts can make your leadership better. Better leadership, stronger team members, and a stronger team.

Join us to find your shifts.

Whether you're preparing for a new leadership role, or an experienced leader looking to develop additional capabilities around leading inclusively, this online workshop will help you build skills to enhance diversity, equity, and inclusion for yourself, your team, and your organization.
