Idea Lab Science

Idea Lab Kids is a true innovator in the Science, Technology, Engineering Math + Art (STEAM) educational space. Idea Lab Kids offers after school programs ranging from coding to culinary, engineering to science. Our tested and proven STEAM curriculum was designed by idea Lab Kids for Idea Lab Kids. There's sure to be something to capture your child's imagination and spark a new passion! Throughout this class students will be exposed to various sciences which are commonly seen in everyday life. They will explore the various aspects of sensory science, medical and forensic science as well as introduction to kid chemistry. The activities are designed to be hands-on where the student will have fun while being introduced to the world of science.

Tippi Toes Ballet

Tippi Toes® Dance Company begins with warm-ups and stretching exercises as well as activities that encourage boys and girls to use their imagination. We then introduce ballet, tap, jazz or hip-hop techniques using dance terms and examples to enhance their knowledge of the art. We incorporate our original dance music to further their dance experience. During each class we instruct the children on dances which will be performed at various times throughout the year. We offer different types of classes depending on the age of the dancer.

Little Birdies Mobile Golf Academy

Little Birdies Mobile Golf Academy is an innovative new series of mobile classes/lessons targeted at introducing and teaching youth key character education skills through the historic and life-long game of Golf. We utilize lessons that teach the intricacies of the whole game of golf, all while incorporating a whole lot of FUN! Our mission is to impact the lives of these precious Little Birdies by exposing them to a game that they would not readily participate in, thus, providing another option for their success all while teaching and modeling key character lessons that will improve him/her as a whole.

Happy Hands	Arts Alive	Lil Sluggers
<p>This is a fun, multi-sensory class for children to develop fine motor skills and learn correct letter formation. We will use fun activities and cool art projects to help children develop the prerequisite skills necessary to hold a pencil correctly, tie shoelaces, cut with scissors, color and manage dressing skills. Every session is full of different activities.</p>	<p>Arts Alive! is a curriculum enrichment program that unlocks the part of a child’s brain that is not typically developed in an academic setting. We take the joy of movement and the creativity of the arts and use it to teach children to activate the higher-order thinking center of their brain. It’s quite fascinating! Science supports that developing this, often underdeveloped part of the brain, sets students up for higher academic success and stronger problem-solving skills, both of which are important for long-term success at life.</p>	<p>Lil Sluggers is an instructional baseball program that focuses on the fundamental skills needed to be successful in baseball, while creating a fun environment that will help your child foster a real love for the game. Basics such as throwing, catching, hitting and base-running are the core of the curriculum. Lil Sluggers builds confidence, while recognizing the importance of teamwork, cooperation and helping others.</p>

Ready Flip Go

Sunshine Art Space

Engineering for Kids

ReadyFlipGo provides foundational gymnastics and tumbling to kids of all ages. We believe in teaching the foundations first; ensuring proper technique and form to establish a healthy and athletic lifestyle. Gymnastics classes are customized for all ages. These classes will teach the foundational techniques for balance beam, bar and tumbling.

Sunshine Art Space is a process art and sensory play experience by former Kindergarten teacher, Jessica Samet. Jessica brings her popular Make and Play class from her studio in Bellaire right here to Goldberg. Artists aged 3-6 are invited to join this class where the focus is on making, doing, and playing rather than the final product. We'll embrace a messy, multi-sensory, safe space where little artists will organically stretch their fine motor and artistic skills while unlocking creative confidence they didn't even know they had.

Students apply their imaginations and the engineering design process to design and build prototype toys. Take your favorite toy and think about how you can enhance it or make it better?! This fun module is all about editing and hacking popular gizmos and gadgets and making it more fun.

Soccer Shots

Soccer Shots is the national leader in youth soccer development for children ages 2 through 8. Our program has been created under the guidance of childhood education specialists, MLS and USL professional soccer players, and experienced and licensed soccer coaches. Using creative and imaginative games, weekly sessions focus on basic soccer skills like dribbling, passing, and shooting. Soccer Shots will expose your child to the fun of soccer and provide the foundation needed to get started in the sport.

The Fun Bus

The FUN BUS is an established mobile Fitness FUN on Wheels program for children that can help your preschool in the fight against childhood obesity. The FUN BUS is a climate controlled, full size school bus that is padded and filled with kid approved gym equipment. The FUN BUS never moves with the children onboard and comes with two fully trained FUN instructors.

Tiny Tigers

4 Years and up Only

Our classes are structured to offer a wide range of benefits for the wide range of children's different ages and abilities. Our students do more than simply improve their physical fitness.

They will learn...

- To Follow Instruction
- To Build Self-Esteem
- Develop Focus and Control
- Develop Balance and Coordination
- Learn Self Defense, Anti-Bullying and Safety
- Develop Social Skills and Teamwork.
- MOST OF ALL HAVE TONS OF FUN!

Zen Kids Yoga

Yoga for kids is all about stillness AND movement! We practice breathing techniques and meditate, but we also stretch, strengthen, balance, and wiggle. In this class, the students have a blast putting together different sequences, playing games, dancing, and creating their own yoga adventures! We also discuss valuable mindfulness topics and complete fun crafts to reinforce these ideas. Topics include: how to handle worries, being present, practicing gratitude, the power of positive thinking, and showing kindness to others. Kids' yoga helps to increase confidence, build concentration, develop self-awareness, and manage stress.

AbraKadoodle

In AbraKadoodle art class, your children will gleefully create their own unique masterpieces using a wide variety of high-quality art materials. Through carefully designed lessons that exceed the National Visual Arts Standards, mini doodlers will learn about diverse artists and art techniques and develop skills important for school success such as fine motor skills, cognitive skills, and the ability to listen and follow directions. They will have a blast as they explore their creative sides and ignite their imaginations!
