

## PRO- Masks

### 3-layer hydrophobic face masks

#### Pricing:

Custom branded face masks:

Volume	Gauged Elasticated Mask (Branded)
100-500	R48.91
500-1000	R41.15
1000-5000	R37.26
5000-20000	R34.94
20000-100000	R27.77
100000-500000	R26.45
500000 +	R25.80

#### Face mask features:

- Three layered masks
- The masks have an upper and lower-end elastic straps, making it easy to tighten the mask to your personal fit
- There is a hydrophobic (waterproof) layer on the front of the masks which helps prevent the transmission of moisture through the mask while still being easy to breathe through
- The masks can be washed, ironed and re-used
- The masks are not medically graded

#### The design:

### Lead time:

Please place your orders to secure your place in the production queue.  
The lead time is 2-4 weeks

If you are interested in placing an order, please email me the following:

- Logo (in vector format) and design (with pantone)
- Quantity
- If you would like a sample to approve your design, the cost is R200 per sample for orders up to 1000. No charge for a sample for orders over 1000
- All orders are to be paid in full upfront
- Masks may not be returned or exchanged

### About us:

We are two young entrepreneurs (Jacqui Phillips and Jason van't Slot) who are very focused on healthy living. We found that there is a need for quality masks that can be customized for businesses.

### About the masks:

We have an agent's arrangement with a reputable mask manufacturer based in Cape Town who is able to customize quantities of 100 masks or more. The masks have three layers, including a hydrophobic front layer, which prevents the transmission of moisture through the mask.

### Benefits to your business:

- Creates awareness for your company
- Shows that your company is part of the fight against COVID-19
- Exposure to your business brand in a very positive way

Many thanks and stay safe

Jason van't Slot
