

## **Baystate Pediatrician Honored with Gift**

This month, **Dr Matt Richardson MD**, Associate Professor of Pediatrics UMass Chan-Baystate and Division Chief and Medical Director of Pediatric Hematology-Oncology at Baystate Children's Hospital was honored through Baystate Health Foundation's Gifts of Gratitude program. It is always wonderful to hear stories of team members going above and beyond for their patients, and this program gives patients and families an opportunity to show their appreciation. A Gift of Gratitude is a powerful way to say "thank you" by making a donation in honor of a doctor, nurse, other staff member or an entire unit, patients or families offer both recognition and appreciation of the care they received. Additionally, their donation goes directly to the area of service to support their honoree's work and pay it forward for future patients.

Dr. Richardson received his medical degree from the University of Rochester and completed his pediatric residency from the University of

Rochester. He completed his fellowship in pediatric hematology-oncology from the University of North Carolina, Chapel Hill and joined Baystate Children's Hospital after fellowship. He became Division Chief and Medical Director of Pediatric Hematology-Oncology in 2017 and successfully led the move of the Sadowsky Center for Children from the Cancer Center to their new home at Baystate Children's Hospital. Congratulations Dr. Richardson on this honor! If you would like to say thanks to a remarkable caregiver, you can make a [Gift of Gratitude](#) and thank your favorite doctor, nurse, or healthcare team member
