

Good Government Is UU Work

This season, we celebrate how Unitarian Universalist values show up in public life.

UUJusticePA's **Good Government Team**, grounded in **UU Principle #5**, works to protect democracy in Pennsylvania through fair maps, ethical governance, and expanded access to the ballot — including support for **vote-by-mail**.

Their advocacy has helped make voting more accessible for seniors, people with disabilities, caregivers, and working families — strengthening democracy across the Commonwealth.

If you believe voting is a human right and democracy requires care and accountability, we invite you to **Meet the Moment** with a year-end gift.
