

Solidarity with South Sudan

2026

JANUARY 2026

"Coming to Solidarity meant a lot to me because when I think about the beginning of my life story up to where I have reached now, there's a big change. Solidarity has really made me to be who I am today. Since I was young, I've loved being around children. At times, they ask questions that are bigger than them, and by being with them, I can answer them in a way that they understand."

FEBRUARY 2026

"It is good that CHTI considers clinical placement to be of great importance because I get exposed to real-life patients, I can use the skills practically (...) CHTI is the best in South Sudan, beyond doubt. Everyone is testifying. We perform well in the national exams, and in terms of the practical part, we get exposed to so many things compared to students in other institutions. When we go for clinical placements, students from other institutions learn from us."

Sebit Oliver, Nurse graduated at CHTI

MARCH 2026

"Solidarity trained us how to plant new and different types of vegetables, such as nightshade and amaranth. I keep some, sell some and then use the money to pay school fees and buy other types of food, such as meat and cooking oil. (...) Life is much better now. I thank Solidarity for changing our lives. We hope that they can train more women in other locations who have not yet been trained."

APRIL 2026

"This training has opened my eyes to a new way of living my faith in the community. I now understand that Church is not just a building, but we the people, gathered around the Word and sharing life together."

MAY 2026

"Before I joined the training I lacked a lot of skills necessary for a teacher. Good classroom management, supporting learners living in distress, important teaching methods and skills were unknown to me. Today after spending almost a year in training at Solidarity, I can confidently say that I have learnt a lot and I see a big change in my approach. The ways of being a teacher, methods, skills and even my own behaviour has changed totally in these months."

JUNE 2026

"The parents are full of gratitude and at the last meeting for the collection of report cards, they recounted their small, great victories: «My children speak English at home, and they teach it to other children in the community!» and «Now my child can write his name»."

JULY 2026

"This has been my dream come true. I have always wanted to work as a health professional. In my home area, there are hardly any qualified medical personnel. You'd most likely find two people in a primary health centre - one nurse and a midwife. They have to work all day, and people die constantly. When I graduate, I hope to further my education if I am lucky and if not, I will return home and serve the people with the knowledge I acquired from CHTI."

AUGUST 2026

"When I first came to the training, I still felt the weight of everything I had lost," shared Maria, "But as we baked together, I felt something changing inside me. I realized I could start again." For Juliana: "We came from different parishes, but now we are one family of women who believe in each other. We will not go back to silence – we will move forward together." And: "They helped us find peace in our hearts – and now they are helping our hands to work again."

SEPTEMBER 2026

"I am determined to complete my studies and when I do, I will develop my career, succeed and will not have to depend on anyone. I will only get married when I am ready to and after I find the right person whose character I will have observed."

OCTOBER 2026

"Before Solidarity's interventions, I only grew maize and peanuts to feed my family, but nothing else remained. After training on good agricultural practices I started producing vegetables... I am currently growing cabbage, tomatoes and onions. I can afford to pay medical bills, my children's school fees. I am now a model farmer in my community. I share my knowledge and skills with farmers who visit my farm."

NOVEMBER 2026

The tournament aimed to bring together the youth of the area through football and promote peace: "We played for peace, not just the trophy. Every goal reminded us that we can come together despite our differences. I saw young people laughing, hugging, and sharing - it gave us hope. The tournament brought joy to many families and helped strengthen community spirit."

DECEMBER 2026

"My father died before I was born, leaving my mother, a farmer, to struggle as a single mother. I am the last child. None of my siblings are educated. They had to sell some cows to educate me through primary and secondary school. After graduation, I will work with confidence. I will return and serve my community - they will understand why I have been away for so long... to study and return home with skills that will help them."

WHAT WE WILL DO WITH YOUR DONATION

With the hope that you would like to renew your help also for 2026

Everything is connected. Concern for the environment thus needs to be joined by a sincere love for our fellow human beings and an unwavering commitment to resolving the problems of society.
(Laudato Si', 91)

HEALTH:
\$4.500 contribute to cover all the recurrent costs (room, food, board, tuition and transportation...) for one nurse or midwife student for one year of a three-year program at our Catholic Health Training Institute in Wau, which prepares qualified nurses and midwives who go on to provide their professional services throughout the country.

What kind of world do we want to leave to those who come after us, to children who are now growing up?
(Laudato Si', 160)

AGRICULTURAL PROGRAMME:
\$2.500 helps 10 households to increase and enhance technical capacity of best agricultural methods, improve food security at household level with surplus for the markets, prevent malnutrition among children under 5 years, reduce post-harvest loses and maintain natural resources through protection measures.

If we want to bring about deep change, we need to realize that certain mindsets really do influence our behavior. Our efforts at education will be inadequate and ineffectual unless we strive to promote a new way of thinking about human beings, life, society and our relationship with nature.
(Laudato Si', 215)

EDUCATION:
\$4.500 contribute to cover all the recurrent costs (room, food, board, tuition and transportation...) for one teacher student for one year of a two-year program at our Solidarity Teacher Training Centre in Yambio, recognized as one of the finest providers of primary teacher training and women's' literacy programs in South Sudan.

A spirituality that forgets God as all-powerful and Creator is not acceptable. That is how we end up worshipping earthly powers, or ourselves usurping the place of God, even to the point of claiming an unlimited right to trample his creation underfoot. The best way to restore men and women to their rightful place, putting an end to their claim to absolute dominion over the earth, is to speak once more of the figure of a Father who creates and who alone owns the world. Otherwise, human beings will always try to impose their own laws and interests on reality.
(Laudato Si', 75)

PASTORAL PROGRAMME:
\$3.500 contribute to cover one cycle of workshops conducted by the Solidarity Pastoral Team. After decades of conflict, the pastoral needs are almost limitless. Our Pastoral Team works in the areas of Trauma Healing, formation of Catechists, Youth, Women, and Priests.

SOLIDARITY COMMUNITY:
\$9,600 supports one Solidarity staff member for one year. You may not be able to send a member of your congregation to Solidarity in the coming year, but a financial contribution will assist other congregations who have personnel to send.
