JANUARY 2025

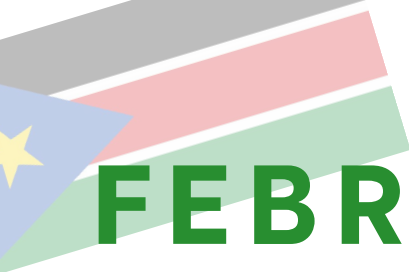

"My Journey with Solidarity has indeed been a big blessing. The Solidarity community has played an important role in my life to nurture and care for me. I was warmly embraced and welcomed at the Training College. This marked the beginning of my happiness."

Maria Angura Urayo
STTC student

FEBRUARY 2025

"CHTI allowed me to become a beacon of hope for many young people. CHTI is not only a training institute for nurses and midwives, but offers holistic and humane education. I do my best to improve the health of my people. Every day I climb hills and mountains, riding donkeys or camels, to reach children, who have never been vaccinated in the most remote areas of the Nuba Mountains. "

Atulu George Adam
Nurse graduated at CHTI,
Health worker in the Department of
Extended Immunisation Programme (EPI)

MARCH 2025

"We received training as part of the Solidarity Sustainable Agriculture Project and followed the advice of the project's livelihood officer, and we were able to make our tomato plantation thrive. One morning, a well-known vegetable seller from Yambio market set off for Rimenze on a rented motorbike, especially to buy four tubs of our tomatoes and also to see the garden and encourage us to add other vegetables, given our success with tomatoes."

APRIL 2025

"Trauma healing workshops have been very important in healing or helping us to cope with what we experienced during the war. South Sudanese have to come to terms with the memory of seeing other people killed right in front of them. During the trauma healing, young people sit together to share their thoughts and fears, which gives them the feeling that they are not alone."

MAY 2025

"CHTI has had a very positive impact on my life. It has been a miraculous calling for me. Some of us are orphans. Like me speaking here, I have many experiences, many life challenges, lack of support from home. But when we come here, we pray and hope that God will open paths for us. We always try to forget the hard life at home and build a better future for ourselves. "

JUNE 2025

"My hope is that one day I can go back to my homeland where I will start up a school. I love the teaching profession, I love children and I also love to teach them. Initially, I thought that teaching is a very tough task to do and so I was not too excited about becoming a teacher but after studying at Solidarity, I am excited to teach."

JULY 2025

"Before Solidarity's interventions, I only grew maize and peanuts to feed my family, but nothing else remained. After training on good agricultural practices I started producing vegetables... I am currently growing cabbage, tomatoes and onions. I can afford to pay medical bills, my children's school fees. I am now a model farmer in my community. I share my knowledge and skills with farmers who visit my farm."

AUGUST 2025

"Here we have a team, Kit FC. When we do the tournament, many teams come from Juba and also from some places called Mutala and Rajaf. We have about 10 teams. We are doing the tournament and we give it the name Peace League because football encourages friendship. It is going very well and we see unity among the players, among the fans and among the coaches. That is why football can promote peace and unity"

SEPTEMBER 2025

"Solidarity vision and mission embraces all young people like me and promotes an integral development of the professional role thus enabling the young teachers to go back to their own realities, to evoke the needed change, to provide quality education to future generations. It is my wish that many young people will seek the same opportunity and make a difference to the lives of those around us especially the younger children at School. "

OCTOBER 2025

"I was forced by the conflict in South Sudan to come and resettle in Riimenze, near the church because I have no relatives who can take care of me. Thanks to Solidarity for supporting me building my small house. They also provide me with maize flour, vegetable oil, pock and sugar every month"

DECEMBER 2025

"The headmistress and staff of the Riimenze kindergarten took the initiative to organise a farm to improve the children's nutrition. Everyone got involved. They put several seeds in the ground, took care of the weeds and now everyone is happy to harvest maize, peanuts and beans. It is amazing how great things can be achieved when people focus on the common good."
