

LEARN TO IDENTIFY

***“Who we can help
to hear better?”***

***Ask those entrusted to your care to answer these
quality-of-life questions and check all that apply:***

DO YOU...

- ☐ Have difficulty hearing in the dining room or other situations with background noise?
- ☐ Avoid social situations and fun activities that require talking to others?
- ☐ Often ask others to repeat themselves so you can try to better understand what they said?
- ☐ Want to be better able to hear and talk with your grandchildren when they visit?
- ☐ Have concerns about how hearing loss relates to aging, dementia, diabetes, heart disease and vision loss?
- ☐ Frequently turn TV volume up so loud that others ask you to turn it down?
- ☐ Have challenges properly hearing family and friends on the telephone?
- ☐ Want to get trusted advice from a caring hearing health expert who makes house calls?

***Together we will provide the wellness information patients need
and personal touch they deserve.***

Trusted Advice, Expert Care

HOW WE HELP

Our referral process is as easy as 1-2-3

1

LOOK & LISTEN

Identify residents in need of compassionate hearing care.

2

WE SHARE, WE CARE

Deliver timely quality of life assessments to family members and trusted experts.

3

FOLLOW UP AND FOLLOW THROUGH

Promote whole person care as an observant advocate for residents in need.

*To start the hearing health care consultation process, please fill out and fax **completed** form to: **Dr. Grace Macky @ 555.456.7891.***
