

# *My Hearing Health Expert Knows*

At home, work and play  
Precious sounds make my day

From important talks to nature walks  
Personal connections truly lead the way

I care how much you know  
Because I know how much you care

By explaining my daily communication challenges  
Better hearing, understanding and living are goals we share

While I want and need to make well-informed decisions  
The clutter of marketing ads I see just focus on prices

Without your educational support and trusted guidance  
I would fear being left to my own devices

Your expert testing with genuine focus on my quality of life  
Is near and dear to my heart

By carefully following your fact-based advice  
Getting your best practices help is clearly smart

Your professionalism and dedication are evident  
It is obvious why your patients and colleagues speak of you so well

I know you will always help me to best experience the joy of hearing  
as your genuine concern and empathy are so easy to tell

While others may just look for a sale and do their best to throw me a curve

You continuously provide the hearing health wellness information I need  
and personal touch I deserve

*Heartfelt thanks for being there for me  
When it comes to expert training, trusted advice  
and true compassion, I pick all 3!*
